Style Guidelines for conference papers

Authors whose abstract was excepted by the program committee are kindly invited to submit full-text papers. The papers will be reviewed and published in the Conference proceedings. Registered authors are kindly invited to submit full-text papers describing their research, including results, tables, figures, and references. All submitted papers should articulate original, unpublished research results, experimental or theoretical. Papers submitted to the Conference should meet these criteria and must not be under consideration for publication elsewhere. Manuscripts must follow the style of the Conference and will undergo both peer review and editing.

Authors who do not want to submit a full peer-reviewed paper and present a case study or similar work will have their abstract printed.

All peer-reviewed papers will have assigned a DOI number and will be published under the open-access article Creative Commons Attribution licence 3.0 (CC BY-SA 3.0).

The final submitted paper should be between 4 and 6 A4 pages and English (British or American.) Authors whose native language is not English are advised to seek and advise a native English speaker or to use proofreading software before submitting their manuscript.

Papers should be submitted as *.doc; *docx; *.rtf attachment to igor.karlovits@icp-lj.si as a mail attachment or via file transfer services if the original file exceeds 20MBs.

All figures and tables must be embedded into the file. For good printing, a quality resolution of (300 PPI) is recommended. In e-version, lower quality of images is also acceptable.

 The final papers file name should be formatted as Surnameof1stauthor_Surnameof2ndauthor_etc_Titleofthe paper.doc/docx. PDF or other types of format are not acceptable and locked files with no editing option.

For all authors, please provide the ORCID ID number in the submitting email. ORCID number can be obtained at https://orcid.org/.
